

Heavy Equipment Mechanic

Location(s): Edmonton, AB

Abalone Construction is a privately owned company with over 30 years specializing in Industrial and Commercial civil construction. We offer construction services in a variety of markets including Infrastructure, Roadbuilding, and Land Development.

We operate over 200 pieces of heavy equipment year-round. Our Heavy Duty Mechanics are an integral member of field operations, responsible for servicing our equipment at our Edmonton location.

Reporting to the Equipment Manager, the Heavy Duty Mechanic is responsible for providing quality workmanship in preventative maintenance and applying technical knowledge to troubleshooting challenges in our equipment.

Primary Responsibilities:

- Perform preventative maintenance for heavy equipment including electrical, hydraulic and mechanical
- Identify and repair deficiencies in a timely manner
- Test repaired equipment
- Perform other related duties as necessary

Qualifications Include:

- Journeyman HET Red Seal Certification in off road
- 5 years' experience servicing and repairing heavy equipment
- Confident working independently as well as with a team
- Desire to complete tasks in a timely manner
- Positive attitude
- Ability to work effectively with others or alone
- Personal vehicle and valid Alberta class 5 license

Working Conditions:

Candidates must be willing to commit to 44 + hours per week. Typical shift is 7:00am -5:00pm.

What we Offer

At Abalone we pride ourselves in offering a competitive salary and some of the best benefits available. Our benefits package includes extended health care (medical, dental), long term disability, life insurance and Employee Family Assistance Programs.

Safety is vital on any Abalone operation. All employees are expected to be familiar with the company's safety program and enforce the safety policy at all times.
